Various Props Included

Props Galore!!!

Clients will be provided a trunk and table filled with various props for event guests to utilize during their photo session. The client may provide their own event specific props for their guest in addition to those props we provide- for those artistic/creatives who want everything just-so.

Custom Photo Overlay

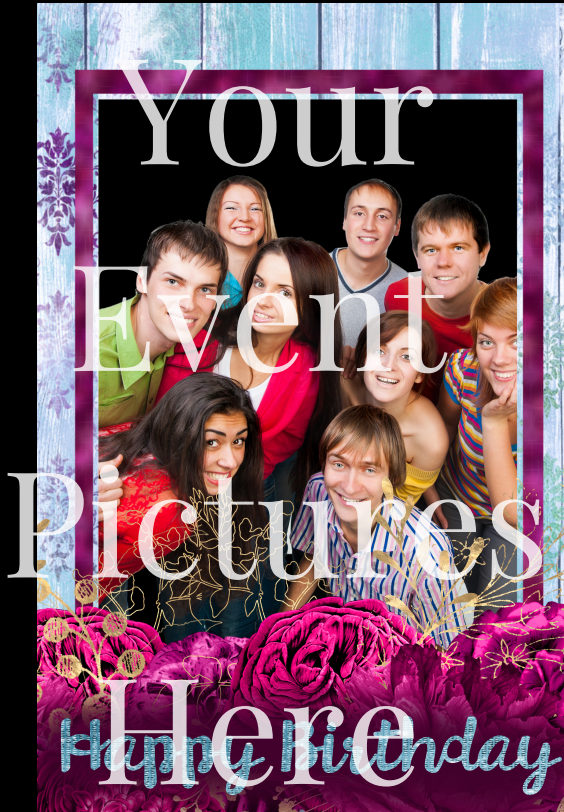

Custom Photo Overlay

Clients will work with us to design a custom photo overlay, this is essentially a frame that is displayed on the Mirror X that event guests can have printed to frame their photographs. The Custom Photo Overlay is event specific (colors, theme, symbols, graphic art, lettering) we work to create with the client or clients may provide their own event specific photo overlay- the latter option is for those artistic/creatives who want everything just-so and would like to put their skills to work creating this detail. We will provide the specifications should the client choose this route. As with all customizations, this is optional. However final selection and/or submission of the Custom Photo Overlay is due 2 weeks prior to the event. Please note, if you choose to create your photo overlay, please be mindful, late submissions will not be accepted as time is required for programming the Mirror X.
